

Features and Benefits

Dynapro

Features

- Synchronization for smooth, silent operation
- Slide is concealed to give a full view of finely crafted drawers
- Self-latching front locking devices have comfortable release levers for drawer removal
- For drawer material thickness: 12.7mm (1/2") to 16mm (5/8") and 16mm (5/8") to 19mm (3/4")
- Support roller for uniform drawer front height
- Fully enclosed liquid damper softly glides drawers to a stop
- 2D, 3D, and 4D adjustment - height, side, depth, and tilt - is simple, tool free, and easily accessible
- Easy to open with a low pull-out force
- Wide drawer member provides stability between cabinet and drawer member
- Meet and exceeds ANSI/BHMA A156.9 standards, Grade 1

Multiple cleats

connect immediately with front locking device at installation for maximum connection between the drawer slide and front locking device.

Dynapro's synchronization allows drawers to move quietly and without any resistance. Even under a load capacity of up to 132 lb the exceptional running performance remains unchanged.

Features

- Wear resistant nylon rollers ensure quiet and precise running characteristics
- Synchronized full extension
- Face frame and frameless applications
- 88 lb dynamic load for Dynapro Standard
- 110 lb dynamic load for Dynapro Extended lengths
- 132 lb dynamic load for Dynapro Heavy Duty
- Minimal drawer front gap using the integrated 2D adjustment
- Extended lengths for 24", 27", and 30" drawers
- Interchangeable with Elite Plus and Maxcess
