

Printable Ruler by: WoodworkerExpress.com

Credit card will line up here
when testing

WoodworkerExpress.com

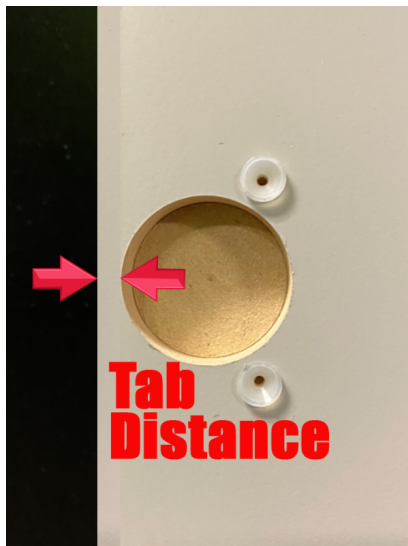

Match your Credit Card to the
outermost edge of this blue box.

Then, check the accuracy of this
ruler by placing your credit card on the
0mm line on the ruler and the width
of the card should be 86mm.

Printing Instructions:

1. File> Print
2. Make sure "Actual Size" or 100% is selected.
3. Print on letter sized paper.
4. Check accuracy using a credit card per instructions at left.

Fig.1

Door Hinge Tab Distance Measuring Instruction:

TAB Distance:

Using the ruler, measure from the edge of the door to the outer
part of the hinge hole on your existing door.

**As seen in fig.1

You will then enter this measurement into our Tab Distance step
in the configurator.
