

May 22, 2022

## Notification Letter

### **Lemyn Organics Medical-Grade Hand Sanitizer Shelf-Life Extension from 24 to 36 Months**

Based on ongoing stability assessment studies, data supporting a shelf-life extension from 24 to 36 months for Lemyn Organics Medical-Grade Hand Sanitizer have been reviewed and approved.

As a result, Lemyn is extending the expiration date for all Medical-Grade Hand Sanitizer manufactured between October 2020 and April 2022 by 12 months beyond the labeled (original) expiration date, providing the product has been and continues to be stored according to the labeled storage condition.

The purpose of this letter is to inform end-users and distributors of the shelf-life extension and subsequent new expiration date and to disregard the old (original) expiration date listed on all Lemyn Organics Medical-Grade Hand Sanitizers manufactured between October 2020 and April 2022.

All Lemyn Organics Medical-Grade Hand Sanitizers manufactured after April 2022 are already labeled accordingly with a new shelf life of 36 months.

Sincerely,

Joe Ittstein
